

Fruit Tree Saplings Appeal

Planting a Sustainable Future for People and Planet

Approximately 500 orphans and other vulnerable children are fed once a week at The Foundation Feeding Programme. All these children are malnourished. By planting fruit tree saplings, it will provide food for these children in the future, give employment and a source of income for The Foundation. The aim is for The Foundation and the village to be self-sufficient. This project help towards that goal.

Over 100 fruit tree saplings have already been planted. We want to be able to send funds for The Foundation to be able to buy and plant far more, securing their future. Planting trees is also benefitting the planet and will help prevent soil erosion in the heavy rains if trees are planted round the edges of the fields as well as in the orchard.

As part of this Eco Project, Eco Stoves are being build for the villagers. These are enclosed stoves which makes them far safer to cook on than open fires and they use less wood as they retain more heat. So trees will be saved, more will be planted, villagers will spend less time gathering wood & be safer.

Can you help the planet & the children by planting a sustainable future?

£10 will buy 4 fruit tree saplings. You can buy any amount you want. If you contribute £100 you can have an area of the orchard named after yourself, a loved one or your business name advertised.

contact_us@changinglivesmalawi.com Our bank details are: Changing Lives Malawi,

sort code: 80-22-60, account number: 19252165 please use 'trees' as reference when making a donation.

Thank you for supporting people & planet. Together we are Changing Lives Malawi.
